

## 2023 Resource List – VCE

Resource list by year level - [www.vsv.vic.edu.au/enrolment/book-resource-lists/](http://www.vsv.vic.edu.au/enrolment/book-resource-lists/)

### Requirements for all students

All students enrolling at Virtual School Victoria require regular and reliable use of a computer/device that has a camera and a microphone and access to the internet. It is also recommended that they have a device with a physical keyboard to easily take notes and respond to communication. A smartphone, tablet or Chromebook alone is not sufficient to meet the needs of student online learning.

Where possible, it is recommended that more than one device is available if more than one child in the same family is enrolled at VSV.

For a full list of minimum technical specifications, please see [www.vsv.vic.edu.au/enrolment/technical-requirements-specifications/](http://www.vsv.vic.edu.au/enrolment/technical-requirements-specifications/)

### Will textbooks need to be purchased?

Alongside the materials developed by VSV, certain subjects require textbooks and additional resources. Some of our subjects require either digital or physical textbooks and/or other resources to be purchased. Some subjects have **required** texts, while other texts are **recommended** only. These textbooks and other resources can be purchased from VSV's recommended textbook supplier, **Campion Education**.

Campion Education  
48 Latitude Boulevard, Thomastown Vic 3074  
Phone: 1300 433 982

Textbooks can be ordered online at <https://order.campion.com.au/index.html#signInView>

The Campion VSV school code is **G9WR**.

Campion delivers throughout Victoria and has provision for interstate and overseas delivery. It is important that textbooks are ordered as soon as possible upon enrolment. Please note that VSV does not process any textbook orders.

**Digital texts** – Students, using digital versions of VCE textbooks, are advised that:

*It is the responsibility of all persons electing to acquire, participate in or use digital resources that may accompany a print reference purchase from the list above to determine the suitability of and risks associated with any online account acquisition, digital product or service use beyond the recommended texts. We do not endorse accompanying digital resource materials or services, or any associated organisation, product or service that may be made available at an additional cost or at no expense beyond the text purchase. All users, participants and students (and their parents, carers and supervisors as the case may be) considering any benefit, risk or other factor associated with the additional purchase or use of further resources beyond those recommended in this list should make a decision based on their independent assessment of the resource, including the nature of the resource, services and service provider and based on the best interests of the participant or student.*

### Additional subject information

The subject information pages on the Virtual School Victoria website may have more details about technological and other requirements for individual subjects. Please read these pages before making subject selections - [www.vsv.vic.edu.au/subjects](http://www.vsv.vic.edu.au/subjects)
