

Application Guide

Step-by-step guide to completing an application

To apply to enrol at VSV, the following four tasks must be completed:

1. Identify an enrolment category

Students must identify the enrolment category they intend to apply under.

2. Complete and submit the online enrolment application form

All students applying to enrol must complete and submit the 2026 online Direct Enrolment Application Form. This will include their subject selection (for Years 9-12), and their medical and residential information. All online referral forms will be sent directly to the referrer by VSV, after the application form is submitted.

3. Gather supporting documentation

Different supporting evidence is required, depending on the enrolment category. All online referral forms will be sent directly to the referrer by VSV.

ALL enrolment applications require the necessary supporting documentation:

- Completed online referral forms/evidence** (see the Eligibility Criteria section for information about which referrals/evidence are required). These forms will be sent to the referrer named in the application form.
- A copy of the student's Immunisation History Statement from the Australian Immunisation Register (if applying for Primary Level F-6).**
- Medical management plan.** This includes but may not be limited to allergies, anaphylaxis, asthma, diabetes and epilepsy (if relevant).
- A copy of a Parent/Carer Concession or Health Care Card (if claiming camps, sports and excursion fund, CSEF).**
- A recent photograph of the student.**

NEW enrolment applications also require:

- A copy of the student's most recent school reports and other academic reports e.g. NAPLAN report, VCE details transcripts.**
- Proof of student's age** (e.g. birth certificate or passport).
