

Safe and Inclusive Virtual Learning Policy

August 2025

Context

Virtual School Victoria (VSV) has a responsibility to prepare students for successful participation in society. All individuals and groups within the VSV community are expected to model behaviours that support the agreed core values of **Respect**, **Empathy**, **Collaboration** and **Growth**.

VSV is committed to providing a safe, supportive, inclusive and trauma informed environment for all students, staff and members of our school community. Our school recognises the importance of the partnership between our school, parents, carers and enrolling schools to support student learning, engagement and wellbeing. We share a commitment to, and a responsibility for, creating an inclusive and safe school environment for our students. We bring trauma informed practice to our work, striving to recognise and mitigate the impacts of trauma on our students and families through our focus on child safety.

VSV will uphold the rights of all students to learn and all teachers to teach. VSV will encourage and support students to interact with each other and teachers appropriately whilst taking responsibility for their actions.

Policy Statement

VSV will aim to provide a safe, inclusive working environment conducive to learning, free from bullying and harassment, giving all students the opportunity to experience success. The Disability Standards for Education at VSV recognises the vulnerability of our student cohort and is committed to providing appropriate student support services and delivering programs that meet the individual needs of students. It is also recognised that inappropriate student actions may be symptomatic of challenges created by health circumstances (e.g. anxiety, OCD, ADD), trauma experiences or difficulty with engagement arising from significant gaps in learning. Students have agency to participate in student voice and leadership at VSV.

This is achieved through:

- Students being challenged, supported and encouraged to participate to reach their full potential.
- The development of positive and trusting relationships with subject teachers and Learning Advisors.
- Encouraging students to accept personal responsibility and take pride in themselves and their school.
- Acknowledging and celebrating the achievement and success of others.
- VSV ensuring the curriculum is inclusive, engaging and compliant with the Victorian Curriculum and Victorian Certificate of Education (VCE) Student Designs.
- Striving to understand what drives student actions and how it impacts on student engagement and learning at VSV.
- Reinforcing appropriate and responsible actions as well as managing inappropriate actions.
- Promoting collaboration between students and with teachers which encourages a positive school climate.
- Supporting students to develop an understanding of their rights and responsibilities, as outlined and agreed to in the VSV Student Agreement.
- Consequences for both responsible and irresponsible interactions being developed and applied consistently.
- Teaching staff being given opportunities to develop skills in managing a safe and inclusive virtual learning environment, including online lessons.
